Entry-Level IT Support | Computer Technician | Hardware & Software Troubleshooting | Property Maintenance | General Labor

Entry-level IT professional with hands-on experience troubleshooting computers, installing hardware and software, working with windows, and assisting with common technical issues. Completed some information Technology training through Dayton Job Corps and earned a Microsoft Office Specialist certification. Lately on my own I have been building CompTIA A+ knowledge and looking for an opportunity in IT support, help desk, or computer repair.

Computer Skills

Hardware: PC upgrades, RAM installation, GPU installation, basic hardware troubleshooting

Support: Software installation, basic network troubleshooting, device setup, troubleshooting Microsoft: Microsoft Word, and Microsoft office.

TRAINING & EXPERIENCE

Dayton Job Corps · Oct 2025 – February 2026 · Dayton, OH

Specialization: Information Technology

Training: I worked with CompTIA A+, Google and Microsoft word.

McDonald's (Crew Member) · May 2022 – August 2022 · Dayton, OH

- Prepared and packaged food while maintaining accuracy in a fast-paced environment
- Assisted customers with orders and maintained cleanliness throughout work areas, including dishes, sweeping & mopping.

Rally's (Team Member): April 2026 – September 2026

- Quickly learned new responsibilities and become someone coworkers and management could rely on during busy shifts.
- Recognized by management as a strong new hire and selected for shift- management training based on performance and leadership potential.

Landscaping / Yard Maintenance – April 2019 – Present

- Pruned large branches and hauled brush and yard debris to designated disposal
- Raked leaves and cleared debris from lawns and outdoor areas
- Mowed grass and performed lawn maintenance

House Maintenance/General Labor

- Replaced and securely installed a residential showerhead
- Applied thread-seal (Teflon) tape to plumbing connections to prevent leaks
- Used hand tools, including pliers, to remove and install plumbing fixtures
- Inspected completed in stallions to ensure proper fit and operation

Replaced damaged electrical switch wall plates -| Personal Project | Sep 2026 (Documents on job website)

Bathroom Sink Drain Repair | Personal Project – Oct 2026 (Project documented on portfolio website)

- Diagnosed a slow-draining bathroom sink and identified issues within the drain assembly.
 - Removed, cleaned, replaced, and reassembled P-trap/drain components.
 - Tested and troubleshot the repair until normal drainage was restored.
-
